Atemmuskeltraining bei Gesunden

Respiratory Muscle Training in Healthy Subjects

A1 Übersichtsarbeiten – Reviews

A1.07	<p>HajGhanbari B, Yamabayashi C, Sheel AW, Reid WD et al. <u>Effects of respiratory muscle training on performance in athletes: a systematic review with meta-analyses</u> Department of Physical Therapy, University of British Columbia, Vancouver, Canada <i>J Strength Cond Res, Jul 25, 2012</i></p>
A1.06	<p>Illi SK, Held U, Frank I, Spengler CM <u>Effect of respiratory muscle training on exercise performance in healthy individuals a systematic review and meta-analysis</u> Exercise Physiology, Institute of Human Movement Sciences, ETH Zurich, Switzerland <i>Sports Med, 42: 707-724, 2012</i></p>
A1.05	<p>Spengler CM <u>Atmungsmuskeltraining und Leistungsfähigkeit</u> Exercise Physiology, Institute of Human Movement Sciences, ETH Zurich, Switzerland <i>Schweizerische Zeitschrift für Sportmedizin und Sporttraumatologie 59:34-39, 2011</i></p>
A1.04	<p>Verges S, Boutellier U, Spengler CM <u>Effect of respiratory muscle endurance training on respiratory sensations, respiratory control an exercise performance: a 15-year experience</u> Exercise Physiology, Institute of Human Movement Sciences, ETH Zurich, Switzerland <i>Respir Physiol Neurobiol, 161: 16 – 22, 2008</i></p>
A1.03	<p>Spengler CM, Boutellier U <u>Breathless Legs? Consider Training your Respiration</u> Exercise Physiology, Institute of Human Movement Sciences, ETH Zurich, Switzerland <i>News Physiol Sci, 15: 101-105, 2000</i></p>
A1.02	<p>Boutellier U <u>Respiratory muscle fitness and exercise endurance in healthy humans</u> Exercise Physiology, Institute of Human Movement Sciences, ETH Zurich, Switzerland <i>Med Sci Sports Exerc, 30: 1169-1172, 1998</i></p>

Durch Klicken auf die unterstrichenen Studientitel gelangen Sie direkt zum Abstract der internetbasierten Datenbank PubMed.

Most studies are hyperlinked to the official PubMed abstracts. To access the PubMed abstracts click on the underlined study titles.

A1.01	<p>Boutellier U Auch die Atmung limitiert die körperliche Leistung bei gesunden Personen Exercise Physiology, Institute of Human Movement Sciences, ETH Zurich, Switzerland <i>Naturforschende Gesellschaft in Zürich 142/4 153-159, 1997</i></p>
A1.00	<p>Boutellier U Die Atmung als leistungslimitierender Faktor bei Normalpersonen und Sportlern Exercise Physiology, Institute of Human Movement Sciences, ETH Zurich, Switzerland <i>Deutsche Zeitschrift f Sportmedizin, 47 (Sonderheft): 216-219, 1996</i></p>

A2 Originalarbeiten – Original Publications

A2.09	<p>Lemaitre F, Coquart JB, Chavallard F, Castres I, Mucci P, Costalat G, Chollet D <u>Effect of additional respiratory muscle endurance training in young well-trained swimmers</u> Activité Physique-Muscle-Santé, Faculté des Sciences du Sport, Ronchin, France <i>J Sports Sci Med. 12(4): 630-638, 2013</i></p>
A2.08	<p>Sartorio A, Agosti F, Patrizi A, Tringali G, Marazzi N, Giunta M, Muller EE, Rigamonti AE <u>GH responses to two consecutive bouts of respiratory muscle endurance training in healthy adults</u> Istituto Auxologico Italiano, IRCCS, Experimental Laboratory for Auxo-endocrinological Research, Milan and Verbania, Italy <i>J Endocrinol Invest, 36(4): 255-260, 2012</i></p>
A2.07	<p>Sartorio A, Agosti F, Patrizi A, Compri E, Muller EE, Cella SG, Rigamonti AE <u>Growth hormone response induced by a respiratory muscle endurance training in healthy subjects</u> Istituto Auxologico Italiano, IRCCS, Experimental Laboratory for Auxo-endocrinological Research, Milan and Verbania, Italy <i>Horm Metab Res. 44: 319–324, 2012</i></p>
A2.06	<p>Vergès S, Renggli AS, Notter DA, Spengler CM <u>Effects of different respiratory muscle training regimes on fatigue-related variables during volitional hyperpnoea</u> Exercise Physiology, Institute of Human Movement Sciences, ETH Zurich, Switzerland <i>Respir Physiol Neurobiol. 31;169:282-289, 2009</i></p>
A2.05	<p>Holm P, Sattler A, Fregosi RF <u>Endurance training of respiratory muscles improves cycling performance in fit young cyclists</u> Department of Physiology, The University of Arizona, Tucson, USA <i>BMC Physiology, 4:9, 2004</i></p>
